“GENERIC” AT GLANCE.....

INTRODUCTION:-

Generic Engineering Construction & Projects Ltd (“GENERIC”) is a Company incorporated in the year 1994. GENERIC’s core business is providing services for civil construction and infrastructure projects on various models ranging from Design, Build, Operate and Transfer (DBOT); Build, Own, Operate and Transfer (BOOT); Build, Operate and Transfer (BOT) and Build, Own, Lease and Transfer (BOLT). GENERIC aims at becoming a world class Construction and Infrastructure Company committed to quality, timely completion, customer satisfaction, continuous learning and enhancement of the stakeholders’ value.

GENERIC today has emerged as a leading player in General Contracting, Design & Build and EPC with a strong presence in Maharashtra and expertise in Residential, Industrial & Commercial construction and also in MEP. It has executed projects for renowned MNC’s and reputed domestic companies. GENERIC being a strong player in small and mid-ticket size projects, has carved out a niche and has been creating new benchmarks.

The year gone by has been a year of achievements in relation to the segment where the Company is focused and also the size of projects that the Company executes. The management has been aggressive but at the same time very calculative and cautious and chooses project orders carefully. The orders have been gingerly picked to build a very strong order book that stands at over three times its current sales. The order book in absolute terms stands at Rs. 420 Crores as on 31st March, 2018. The orders are well spread out across different industries – Real Estate, Industrial, Commercial. The intention is to maintain a ratio of 40:40:20 between Real Estate, Commercial & Industrial and MEP.

Managing Director's Message to Shareholders

I am pleased to inform that our Company had a very successful year and has been significantly making progress towards fortifying its identity as a market leader in various niche segments of construction. In view of the positive changes that have happened in the industry, I am optimistic of GENERIC'S ability to sustain growth and emerge a much stronger player than before.

The overall macroeconomic scenario has strengthened with policy support, providing structural strength and imparting efficiency. Interestingly, multilateral institutions like the IMF and the World Bank have endorsed India as a 'bright spot' in the global economic landscape, amid reforms with far-reaching positive outcomes. During the year, the Government implemented several radical reforms like GST and RERA.

The implementation of GST has helped to create a uniform indirect tax structure for the entire nation. For the real estate industry, the finalized rates stand at 18% and effectively, this would be 12% as deduction of land value is allowed. The GST reduced the multiple taxes and brought the much-needed clarity to both real estate players and customers. India's real-estate landscape is also undergoing a major change with the RERA Act, 2016 legislation. The guidelines of the Act empowered buyers of properties, while at the same time enhancing discipline, governance, transparency among the real estate players.

At GENERIC, we understood that at a time when the domestic market conditions were showing signs of revival, it would be prudent to strengthen our capabilities to cater to the vast Indian opportunities. Consequently, our superior growth numbers testify the relevance of our strategies, which are closely aligned to external opportunities and the government's key policies.

GENERIC delivered a robust performance in FY18: a topline of Rs. 138.32 crore. This, coupled with sufficient order book and improving efficiency, facilitated growth in operating EBITDA to Rs. 19.58 crore and net profit of 11.50 crore in FY2018. GENERIC'S Board has approved a stock split of 1 (one) equity share of face value of Rs. 10/- each to 2 (two) equity share of face value Rs 5/- each. Board has also recommended a dividend of 1% of face value i.e. Rs. 0.10 per share, subject to the approval of shareholders.

Generic Engineering Construction & Projects Limited has received 'Award of Excellence in Construction and Engineering' by Make in India Foundation (MIIB). This is a testimony to our performance and client confidence.

We expect to grow at healthy rate but not at the cost of burdening our balance sheet or compromising on our margins. Our Company is among the leading players in niche segments like hospitals and cold storage. Our Company has developed the technical know-how and required skill sets to emerge as one of the best in construction and known for our on time delivery. We strive to be one stop solution of all construction activities. This has increased the trusts of our clients in us, leading to repeat orders.

We believe that several government initiatives - award of infrastructure status to the affordable housing segment, Credit Linked Subsidy Scheme under Pradhan Mantri Awas Yojana (PMAY), extension of income tax benefits up to 60 square meter sized apartments, implementation of RERA and GST - will enhance our sectoral opportunity. Besides, this transformation will benefit organized developers like GENERIC who possess a strong execution focus. We expect these changes combined with lower home loan interest rates to lead to improved consumer confidence and demand. On our part, we will continue to maintain our focus on execution and operational efficiencies, utilizing positive operating cash flows to drive volumes and strengthen our Balance Sheet

With a continued emphasis on project delivery, quality construction, innovation and value enhancement of the entire ecosystem, the future looks promising for our Company. Our success so far has been driven by our most important asset – our team! I would like to take this opportunity to thank each and every member of the GENERIC family. I would also like to thank our Clients, Creditors, Banks, Financial Institutions and other Stakeholders, without whose patronage we could not have been where we are.

13. The Securities and Exchange Board of India has made it mandatory for all companies to use the bank account details furnished by the Depositories and the bank account details maintained by the Registrar and Transfer Agents for payment of dividend through Electronic Clearing Service (ECS) to investors wherever ECS and bank details are available. In the absence of ECS facilities, the Company will print the bank account details, if available, on the payment instrument for distribution of dividend. The Company will not entertain any direct request from Members holding shares in electronic mode for deletion of/change in such bank details. Further, instructions if any already given by them in respect of shares held in physical form will not be automatically applicable to shares held in electronic mode. Members who wish to change such bank account details are therefore requested to advise their Depository Participants about such change, with complete details of bank account.
 14. The Company has extended the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s) through the Electronic Clearing Service (ECS)/ National Electronic Clearing Service (NECS). Members wishing to avail of this facility are requested to intimate the Company's Registrar and Transfer Agents/Depository Participants in the prescribed form and with the prescribed details. Members located in places where ECS/ NECS facility is not available may submit their bank details to the Registrar and Transfer Agents. This will enable the Company to incorporate this information on the dividend warrants and thus prevent fraudulent encashment.
 15. Members holding shares in physical form are requested to consider converting their holding to dematerialized form to eliminate all risks associated with physical shares and for ease in portfolio management. Members can contact Company's Registrar and Share Transfer Agent i.e Satellite Corporate Services Private Limited, or directly approach any depository participant for assistance in this regard.
 16. Pursuant to Section 101 and Section 136 of the Companies Act, 2013 read with relevant Rules made thereunder, electronic copy of the Notice of the Annual General Meeting of the Company inter alia indicating the process and manner of e-Voting along with Attendance Slip and Proxy Form is being sent to all the members whose email IDs are registered with the Company/Depository Participants(s) for communication purposes unless any member has requested for a hard copy of the same. ITEM NO. 11: RE-CLASSIFICATION AND RE-CONSTITUTION OF THE PROMOTERS AND PROMOTER GROUP OF THE COMPANY

The Board of the Directors of the Company at their meeting held on November 07, 2016 had proposed to issue 90,91,800 Equity Shares of face value Rs 10/- each to Generic Engineering and Construction Private Limited (hereinafter referred to as the "Acquirers"), Ms Hemlata Manish Patel, Ms Krupa Manish Patel, Ms Ranjan Dinesh Patel, Ms Nayana Ravilal Patel and Ms Trupti Mitul Patel (hereinafter referred to as the "Persons action in concert –PAC's") subject to approval of the shareholders and the regulatory authorities. The Board also further approved the transfer of 2,91,600 Equity Shares pursuant to Share Purchase Agreement dated November 07, 2016 from Mr Hiren Kothari (hereinafter referred to as the "Erstwhile Promoter") to Mr Manish Ravilal Patel (hereinafter referred to as the "Acquirers").

The above said preferential allotment of 90,91,800 Equity Shares and transfer of 2,91,600 Equity Shares pursuant to Share Purchase Agreement had triggered the obligation of Open Offer by the Acquirers and the PAC's in terms of SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011, for at least 26% of the post preferential issue capital of the Company ("Open Offer").

Regulation 31 A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 has provided a regulatory mechanism for re-classification of promoters as Public Shareholders, where the new promoter replaces the previous promoter subsequent to the Open Offer, subject to fulfillment of conditions as provided therein.

Under these regulations, the person is not desirous to be classified as the promoter of the Company, must submit a request to the Company stating the same, which is to be accepted by the Company subject to the approval of the shareholders and concerned Stock Exchanges where the shares of the Company are listed.

Post successful completion of the Open Offer, preferential allotment and transfer of shares of Mr Hiren Kothari (Erstwhile Promoter) to Mr Manish Patel (Acquirer) pursuant to Share Purchase Agreement, the Board of the Directors at their meeting held on February 27, 2017 had inducted the Acquirers and the PAC's as new promoters of the Company. Post induction of new promoters, erstwhile promoter group is required to be reclassified as Public Shareholders pursuant to the provisions of Regulation 31A of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015.

The Board of Directors of the Company have received a request from the erstwhile promoters to Re-classify them as Non – promoters hence, the Board recommends the aforesaid Special Resolution for your approval. As on date, the erstwhile Promoter holds NIL shares in the Company nor he has any special rights through arrangements nor any of the Directors or KMP of the Company act as representative of the erstwhile promoter.

None of the Directors except Mr. Manish Patel and Mrs. Trupti Patel and Key Managerial persons of the Company and their relatives are concerned or interested, financial or otherwise, in the resolution set out at Item No 11.

The Board recommends a **Special Resolution** at Item No. 11 for approval by the Members.

MANAGEMENT DISCUSSION AND ANALYSIS

Global Economic Outlook

With buoyant financial markets and a long-awaited cyclical recovery in manufacturing and trade, world growth was 3.5 percent in 2017 and is expected to grow at 3.6 percent in 2018. The US has led this improvement by growing at 2-3%. Fiscal easing is also likely under the Trump administration. Europe's growth forecast is 1.5%, which is consistent with the gradual improvement in the labour market. Japan's growth rate is in the range of 1% due to a weakness in its demographics and a decline in its working age population. China is expected to grow by 6.5%; long term concerns remain due to the continued rapid debt growth, which has a potential for financial weakness. Growth is projected to pick up from 2018 onwards, almost entirely on account of developments in emerging markets and developing economies. Emerging markets are fast growing economies undergoing fundamental changes with sustainable growth prospect. These economies are expected to be global growth drivers contributing to 55% of the world GDP by 2020, a substantial rise from the 40% today. By 2020, the combined GDP of emerging economies is projected to be around USD 20 trillion with a consumer base of 3 billion. This primarily reflects two factors: the gradual normalization of macroeconomic conditions in several countries experiencing deep recessions and the increasing weight of fast-growing countries in this group, in the world economy. Multinationals are looking at emerging markets for the next surge of growth as momentum slows in developed markets.

India Economic Outlook

India is poised to become the world's third largest construction market by 2025, adding 11.5 million homes a year to become a USD 1 trillion a year market according to a new study by Global Construction Perspectives. 50% of the demand for construction activity in India comes from the infrastructure sector; the rest comes from industrial activities, residential and commercial development etc. The construction industry is the second largest industry of India after agriculture. It is valued at over USD 126 billion and therefore, it is a priority for the government's economic policy.

Going by the current trends, the Indian Government realizes the importance of developing the infrastructure of Asia's third largest economy to maintain a double digit growth rate. The infrastructure spending has seen an upward trend in the past few years, with the total share in bank funding increase from 3.74% in 2002 to approx 10.40% in 2015. The Construction Industry in India has developed a sustainable demand from the industrial and real estate sector. The existing urban infrastructure is inadequate to meet the demands of the growing urban population. However, due to the lack of funds, the realty industry is facing a terrible slowdown, with sales down drastically and the inventory of unsold flats piling up. The real estate prices have dropped by 30% and yet there are very few buyers in the market. The growth of this industry is very important because the middle class and even the small traders make investments in this sector.

The norms for FDI in the construction development sector are eased as well, which in turn has generated high interest levels from not just the foreign investors but also domestic players. The future of the building and construction industry appears bright. The Construction industry in India expects a growth rate of 7-8% per annum over the next 10 years. Nevertheless, the industry remains highly fragmented though the share of the 'organized' players is growing rapidly –accounting for about 50% of the industry today.

Some of the recent initiatives by the Government in India include :

- Pradhan Mantri Awas Yojna :
Housing for All by 2022, also known as the Pradhan Mantri Awas Yojana envisages the construction of about two crore houses in the country from 2015 to 2022, for the homeless and for people belonging to the economically weaker section and low-income group categories
- The Planning Commission (a department formed to develop and co-ordinate investment plans for the central government) had projected a USD 1 trillion investment in infrastructure. The government is working on many ambitious projects undertaking the development of infrastructure and roads in India. The Union finance minister proposed industrial corridors and 20 new industrial clusters.
- The Government of India has commenced implementation to develop 'One Hundred Smart Cities' as satellite towns of larger cities by modernizing the existing mid-sized cities in the country.

- The Government announced two major initiatives in health sector, as part of Ayushman Bharat programme. This policy is aimed at making path breaking interventions to address health holistically, in primary, secondary and tertiary care systems, covering both prevention and health promotion. This has given a push to increase Hospital network in Tier-2 and Tier-3 towns;
- The Government has announced an allocation of INR 1,014.09 crores for FY 2018-19 towards the revival of 50 airports and viability gap funding for improving aviation infrastructure in the North-eastern states;

Outlook and Business Review

Generic Engineering Construction and Projects Limited caters to business segments as enlisted below. We hereby present the Country and business outlook in these segments.

1. Infrastructure;
2. Hospitals;
3. Railways & metro;
4. Urban Infra and Airports;
5. Industrial – Manufacturing;
6. Real Estate;

Infrastructure

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads and urban infrastructure development. In 2016, India jumped 19 places in World Bank's Logistics Performance Index (LPI) 2016, to rank 35th amongst 160 countries.

The Government of India is expected to invest highly in the infrastructure sector, mainly highways, renewable energy and urban transport, prior to the general elections in 2019.

The Government of India is taking every possible initiative to boost the infrastructure sector. Some of the steps taken in the recent past are being discussed hereafter.

- Announcements in Union Budget 2018-19:
 - Massive push to the infrastructure sector by allocating Rs 5.97 lakh crore (US\$ 92.22 billion) for the sector.
 - Railways received the highest ever budgetary allocation of Rs 1.48 trillion (US\$ 22.86 billion).
 - Rs 16,000 crore (US\$2.47 billion) towards Sahaj Bijli Har Ghar Yojana (Saubhagya) scheme. The scheme aims to achieve universal household electrification in the country.
 - Rs 4,200 crore (US\$ 648.75 billion) to increase capacity of Green Energy Corridor Project along with other wind and solar power projects.
- The 90 smart cities shortlisted by the Government of India have proposed projects with investments of Rs 191,155 crore (US\$ 30.02 billion) which include Projects Focusing on Revamping an Identified Area (Area Based Projects) with investment of Rs 152,500 crore (US\$ 23.95 billion).
- Contracts awarded under the Smart Cities Mission would show results by June 2018 as the work is already in full swing, according to Mr Hardeep Singh Puri, Minister of State (Independent Charge) for Housing and Urban Affairs, Government of India.
- The Government of India is working to ensure a good living habitat for the poor in the country and has launched new flagship urban missions like the Pradhan Mantri Awas Yojana (Urban), Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and Swachh Bharat Mission (Urban) under the urban habitat model, according to Mr Hardeep Singh Puri, Minister of State (Independent Charge) for Housing

Hospital

Healthcare has become one of India's largest sectors - both in terms of revenue and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment. The Indian healthcare sector is growing at a brisk pace due to its strengthening coverage, services and increasing expenditure by public as well private players.

Indian healthcare delivery system is categorised into two major components - public and private. The Government, i.e. public healthcare system comprises limited secondary and tertiary care institutions in key cities and focuses on providing basic healthcare facilities in the form of primary healthcare centres (PHCs) in rural areas. The private sector provides majority of secondary, tertiary and quaternary care institutions with a major concentration in metros, tier I and tier II cities.

India's competitive advantage lies in its large pool of well-trained medical professionals. India is also cost competitive compared to its peers in Asia and Western countries. The cost of surgery in India is about one-tenth of that in the US or Western Europe.

The hospital and diagnostic centres attracted Foreign Direct Investment (FDI) worth US\$ 4.99 billion between April 2000 and December 2017, according to data released by the Department of Industrial Policy and Promotion (DIPP).

Metros & Railways

The Indian Railways is among the world's largest rail networks. India's railway network is recognised as one of the largest railway systems in the world under single management.

The Government of India has focused on investing on railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. At present, several domestic and foreign companies are also looking to invest in Indian rail projects.

India plans to develop metro rail projects in over 30 Indian cities. Currently, the metro rail network is operational or partly operational in nine cities and another five cities have under-implementation metro projects. "Roads and urban infrastructure, including Metro Rails are two key segments which have witnessed robust order inflows for the construction companies. Further, with sizeable pipeline of projects in these segments, the construction sector is expected to have sufficient order inflows and companies with strong track record and healthy balance sheet are expected to exhibit strong growth going forward," K. Ravichandran, Senior Vice-President and Group-Head, Corporate Ratings, ICRA, said.

Metro rail projects will be developed in another 15-20 cities. ICRA estimates that the overall cost of expansion of operational and under implementation approved metro projects is over Rs 2.5 lakh crore, thus supporting the order books of construction contractors. Metro Rail projects worth another Rs. 2 lakh crore are in various stages of approvals and are likely to come up for bidding within the next five years. This is expected to boost the order book of construction companies by Rs. 75,000-90,000 crore over the next three to five years.

Urban infra and airports

India's domestic aviation market has become the third largest in the world and the overall civil aviation market in India is all set to become the world's third largest by 2020. By 2020, passenger traffic at Indian airports is expected to increase to 421 million.

Domestic passenger traffic expanded at a Compound Annual Growth Rate (CAGR) of 13.91 per cent over FY06-18. International passenger traffic posted a CAGR of 9.36 per cent over FY06-18. Freight Traffic grew at a CAGR of 7.53 per cent over FY06-18. Freight Traffic is expected to grow at a CAGR of 7.27 per cent to reach 4.14 million tonnes in FY23.

The Government of India has launched regional connectivity scheme named UDAN (Ude Desh ka Aam Nagrik) to make flying affordable for common man.

According to data released by the Department of Industrial Policy and Promotion (DIPP), FDI inflows in air transport (including air freight) between April 2000 and December 2017 stood at US\$ 1,608.51 million.

India is estimated to see an investment of US \$25 billion in the next decade in the airports sector, and traffic growth of 13 per cent, according to Morgan Stanley. According to them, the share of air travel in air and rail travel combined in India will grow to 15.2 per cent by 2027 from 7.9 per cent now.

Capex plans to the tune of Rs 65,000 crore (US\$ 10.08 billion) have been finalised by the Airports Authority of India with Rs 17,500 crore (US\$ 27.13 billion) for the next five years and around Rs 22,000 crore (US\$ 3.41 billion) for brownfield expansion in Delhi, Mumbai, Hyderabad and Bengaluru by private operators and around Rs 21,000 crore (US\$ 32.55 billion) for greenfield airports.

Industrial – Manufacturing

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020. During 2017-18, Index of Industrial Production for manufacturing sector grew 4.50 per cent. India's Index of Eight Core Industries advanced 4.2 per cent year-on-year during 2017-2018. Manufacturing sector PMI of India stood at 51.60 in April 2018 indicating an expansion in the manufacturing sector. With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power.

Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 73.70 billion during April 2000-December 2017.

India has become one of the most attractive destinations for investments in the manufacturing sector. India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country. The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2.5 trillion along with a population of 1.32 billion people, which will be a big draw for investors. With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

Real estate

The real estate sector is one of the most globally recognized sectors. In India, real estate is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. The real estate sector comprises four sub sectors - housing, retail, hospitality, and commercial.

There are 8 major real estate markets in the country, with Mumbai, NCR and Bengaluru being the top cities, followed by Pune, Hyderabad, Chennai, Kolkata and Ahmedabad. The residential real estate segment is fragmented by nature with dominant regional players and very few developers having a pan-India presence. Commercial real estate and Retail real estate segment has fewer players which hold most of the quality office and retail spaces which ensures transparent transactions and accountability in the business for investors and buyers/lesers alike compared with the residential segment.

The real estate sector is headed for greater transparency, and accountability after the introduction of Real Estate Regulation and Development Act, 2016 (RERA) and various other regulatory and policy initiatives. Sources of funds to the cash-starved sector have recently witnessed innovation with introduction of structured products through CMBS, REITs, PE funding etc.

	Residential segment	Commercial segment	Retail segment
Inventory	Excessive inventory in big ticket housing segments and huge demand-supply Gap in affordable segments.	Lack of A-grade space in high demand markets.	Lack of quality retail space in high demand markets and excess inventory in lower grade retail space.
Regulations	RERA 2016.	RERA 2016 & REIT	RERA 2016 & REIT
Challenges	Implementation of RERA. Lack of transparency and inefficient approval process for construction.	Decreased demand from ITES, BFSI, E-commerce and Telecom sectors.	Competition from technology platforms like e-commerce.

Regulatory changes and policy initiatives for the industry

The industry witnessed introduction of regulatory changes and policy initiatives in order to transform it into an organized, transparent, accountable and investor-friendly sector. Lack of long term funds has been the biggest impediment for the sector which could not be fulfilled by banking institutions owing to regulatory restrictions of the Central bank.

Real Estate Investment Trusts (REITs): One of the most transformational changes which have been brought in to make the entire sector more transparent and investor centric. Apart from the fact that REIT would let small investors buy into the real estate asset class at a much smaller ticket size, REIT gives large portfolio investors the chance to exit from investments, which makes Indian real estate market favorable for more investments from global investor community. Additionally, Budget 2016-17 exempted dividend distribution tax (DDT) on special purpose vehicles (SPVs). Rules for REITs were relaxed, and the investment cap in under-construction projects was raised from 10% to 20%. Currently, around 229 m. s. ft. of office space can be seen as REIT compliant.

2014	<ul style="list-style-type: none"> • Introduction of Real Estate Investment Trust (REIT) by SEBI in September 2014.
2015	<ul style="list-style-type: none"> • Housing for all 2022” by the Union Government in June 2015 • Land Acquisition, Rehabilitation and Resettlement (Amendment) Bill, 2015 • Removal of cap on FDI in real estate and construction in November 2015
2016	<ul style="list-style-type: none"> • Amendment and introduction of Real Estate (Regulation and Development) Act in May 2016.
2017	<ul style="list-style-type: none"> • Affordable housing given Infrastructure status during union Budget 2017, alongwith change in classification w.r.t. floor size for affordable housing.

Real Estate (Regulation & Development) Act 2016: RERA, was passed by the Parliament in March 2016. States have to implement the bill within one year from the time it was passed. This bill is primarily aimed at bringing in transparency to the sector and is being touted as a pro-consumer law. One of the biggest industry wide change has been the registration of properties under development by developers which would mean only organized and professionally managed companies would be able to carry on with the business, thus the sector would see lot of consolidation going forward.

Goods and Services Tax: The GST is the single-biggest tax reform to be ever introduced in India. GST aims at eliminating the difference in indirect taxes applicable across various states, hence bringing in ease of doing business and simplified taxation procedure for businesses. The tax regime was introduced in the year 2017, with most states having accepted the law after debate and discussion. The sector stands to benefit from the fact that GST would provide more clarity on tax-credits for RE transactions and allowance of input credit would reduce the price of properties.

Infrastructure status to affordable housing: The affordable housing segment has been accorded infrastructure status which would ensure more funding from the banking system as well as Pension funds being eligible to invest long term into affordable housing segment which in turn would reduce the cost of construction. For classification of affordable housing, instead of “built-up” area of 30/60 sqm, the new classification is “carpet- area” of 30/60 sqm. The 30 sqm limit applies only in case of municipal limits of 4 metropolitan cities while for the rest of the country including the peripheral areas of metros, limit of 60 sqm will apply. The government has also extended the time of completion of such projects from 3 years to 5 years.

Benami Transactions Act 2016: This bill will curb black money flow into real estate and will render holding of property under fictitious names a punishable offence. This bill aims at bringing transparency and accountability in the sector as a whole especially with regard to funding.

Policy initiatives: Pradhan Mantri Awas Yojana and National Urban Housing Policy 2015 set up to meet the gap of housing through increased private sector participation and policy initiatives to support housing for all across by 2022. Total housing shortage envisaged to be addressed through the new mission is 20 million by 2022.

Smart Cities mission for revival and creation of 100 cities into smart cities, Atal mission for rejuvenation and urban transformation, heritage city development and augmentation yojana (HRIDAY) are some other policy initiatives, which if implemented in line with the projected plan of implementation would be huge growth drivers for housing segment of real estate.

Risk Management, Identification & Mitigation

Like every business, the company faces risks, both internal and external, in the undertaking of its day-to-day operations and in pursuit of its longer-term objectives. A detailed policy drawn up and dedicated risk workshops are conducted for each business vertical and key support functions wherein risks are identified, assessed, analyzed and accepted / mitigated to an acceptable level within the risk appetite of the organization. The risk registers are also reviewed from time to time.

The Company faces the following Risks and Concerns:

Credit Risk

To manage its credit exposure, GENERIC has determined a credit policy with credit limit requests and approval procedures. Company does its own research of client's financial health and project prospects before bidding for a project. Timely and rigorous process is followed up with clients for payments as per schedule. The company has suitably streamlined the process to develop a focused and aggressive receivables management system to ensure timely collections.

Contractual Risk

GENERIC follows a meticulous process to evaluate the legal risks involved in a contract and ascertain its legal responsibilities under the applicable law of the contract. All the worst possible scenarios are considered and as a strategic priority with consultation from advisor's terms are inserted to restrict liabilities to the maximum extent possible.

Competition Risk

This risk arises from more players wanting a share in the same pie. Like in most other industries, opportunity brings with itself competition. We face different levels of competition in each segment, from domestic as well as multinational companies. The Company has created strong differentiators in project execution, quality and delivery which make it

Opportunities

Government Initiatives	<ol style="list-style-type: none"> 1. Total Allocation for infrastructure in budget 2018-19 stands at 5.97 lakh crore. 2. Introduction of National Steel Policy in 2017 to aim at higher spending on infrastructure and construction through government initiatives. 3. The Government is making an attempt to revive and give boost to Public Private Partnerships.
International Associations	<ol style="list-style-type: none"> 1. Japanese investment has played significant role in India's growth story. Japan has pledged investments of around USD35 billion for the period of 2014-19 to boost India's manufacturing and infrastructure sectors. 2. The Japanese government is constantly looking for investment opportunities in India. 3. Foreign investments from giants like IKEA, Idemitsu Kosan Global, etc. will create huge demand for infrastructure.
Urban Indian Real Estate	<ol style="list-style-type: none"> 1. With every sixth urban person globally being an Indian, the real estate and construction sector holds significant opportunity for both global and domestic companies engaged across the value chain. 2. India will need to construct 43,000 houses every day until 2022 to achieve the vision of Housing for All by 2022. Hundreds of new cities need to be developed over the next decade. 3. This has the potential for catapulting India to 3rd largest construction market globally. The sector is expected to contribute 15 per cent to the Indian economy by 2030. 4. The recent policy reforms such as the Real Estate Act, GST, REITs, steps to reduce approval delays etc. are only going to strengthen the real estate and construction sector.
Key Regulatory and Structural Developments	<ol style="list-style-type: none"> 1. The real estate industry was embroiled in disputes due to ambiguity in provisions as well as multiple taxation. GST is expected to simplify taxation compliance and have a positive impact on the industry as a whole. 2. RERA Act has forced real estate players to become more transparent in their business, especially planning and pricing as well as better execution and timely delivery.

resilient to competition. Furthermore, the Company continues to invest in technology and its people to remain ahead of the curve. A strong, stable client base consisting of large and mid-sized corporations further helps to insulate the Company from this risk. We counter this risk with the quality of our infrastructure, our customer-centric approach and our ability to innovate customer specific solutions, focusing on pricing and aggressive marketing strategy, disciplined project executions, coupled with prudent financial and human resources management and better control over costs. Thus, we do not expect to be significantly

affected by this risk.

Political Risk

Successive governments have identified infrastructure investment as a key priority to accelerate economic development, thus reducing this risk to a great extent. Further, the Company ensures that the quality of its work commands respect and has developed good relationship with the local authorities thus and faces minimal interruption from the political set-up.

Regulatory Risk

If we are unable to obtain required approvals and licenses in a timely manner, our business and operations may be adversely affected. We require certain approvals, licenses, registrations and permissions for operating business. We may encounter delays in obtaining these requisite approvals, or may not be able to obtain such approvals at all, which may have an adverse effect on our revenues. However, the Government has come up with a number of initiatives to boost the sector and has planned massive investments in the infrastructure sector. As all industry predictions suggest that this will be the trend in the future as well and given our own experience in obtaining such permissions, we do not expect this risk to affect us materially in the coming years.

Liability Risk

This risk refers to our liability arising from any damage to cargo, equipment, life and third parties which may adversely affect our business. The Company attempts to mitigate this risk through contractual obligations and insurance policies.

Execution Risk

The Company has undertaken number of projects in the last year and several more are in the pipeline. Project execution is largely dependent upon land purchase, project management skills and timely delivery by equipment suppliers. Any delay in project implementation can impact revenue and profit for that period. Our implementation schedules are in line with the plans. Emergency and contingency plans are in place to prevent or minimize business interruptions. Therefore, we do not expect this risk to affect us materially in the future. Concerns like soaring land prices, a complex tax structure, infrastructure bottle-necks, retaining talent and unprecedented natural and man-made disasters and political/social turmoil which may affect our business, remain. However, these are threats faced by the entire industry. With superior methodologies and improved processes and systems, the Company is well positioned to lead a high growth path.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

In view of the changes in the Companies Act, the Company has taken additional measures to strengthen its internal control systems. Additional measures in this regard are fraud risk assessment, mandatory leave for employees, strengthening background verification process of new joiners, whistle blower policy and strengthening the process of risk management. The Company maintains a system of internal controls designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, the reliability of financial controls, and compliance with applicable laws and regulations.

The organization is well structured and the policy guidelines are well documented with pre-defined authority. The Company has also implemented suitable controls to ensure that all resources are utilized optimally, financial transactions are reported with accuracy and there is strict adherence to applicable laws and regulations.

Threats

- Competition from local and multinational players
- Execution risk
- Regulatory changes
- Attraction and retention of human capital

The Company has put in place adequate systems to ensure that assets are safeguarded against loss from unauthorized use or disposition and that transactions are authorized, recorded and reported. The Company also has an exhaustive budgetary control system to monitor all expenditures against approved budgets on an ongoing basis. Recognizing the important role of internal scrutiny, the Company has an internal audit function which is empowered to examine the adequacy of, and compliance with, policies, plans and statutory requirements. ANNEXURE V
CORPORATE GOVERNANCE REPORT

In compliance with the Corporate Governance requirements as stipulated in Schedule V (C) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations'), a Report on Corporate Governance is set out below:

1. COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE:

The Company's Corporate Governance structure plays a pivotal role in realizing their long term goal. It provides the fundamental systems, processes and principles that promote objective decision making, performance based management and a corporate culture that is characterized by integrity and fairness in all dealings. Critical to this, is the high degree of transparency in disclosures across all levels of stakeholder engagement, which are periodically done while maintaining the importance of reserving competitive information from being disseminated.

The primary objective is to develop and adhere to a corporate culture of harmonious and transparent functioning, increasing employee and client satisfaction, and enhancing shareholders' wealth by developing capabilities and identifying opportunities that best serve the goal of value creation.

2. BOARD OF DIRECTORS ('BOARD'):

(i) COMPOSITION AND CATEGORY OF THE DIRECTORS:

The Board of Directors has an ideal combination of Executive and Non-Executive Directors and is in conformity with the provisions of Companies Act, 2013 and Regulation 17 of the SEBI Listing Regulations which inter alia stipulates that the Board should have an optimum combination of Executive and Non-Executive Directors with at least one Woman Director.

As on date Board consists of 8 (Eight) Directors including 3 (Three) Executive Directors, 4 (Four) Independent Directors and 1 (One) Non-Executive Director. Out of 8(Eight), there are 2 (Two) women Directors on Company's Board.

All the Directors possess the requisite qualifications and experience in general corporate management, finance, banking, insurance and other allied fields enabling them to contribute effectively in their capacity as Directors of the Company. All the Independent Directors of the Company have been appointed as per the provisions of the Companies Act, 2013 and the SEBI Listing Regulations. Formal Letters of appointment have been issued to the Independent Directors. The terms and conditions of their appointment are disclosed on the website of the Company.

All the Independent Directors have confirmed that they meet the criteria of "Independence" as mentioned under Regulation 16 of the SEBI Listing Regulations and Section 149(6) of the Companies Act, 2013 and that none of the Independent Directors of the Company are serving as an Independent Director in more than seven (7) Listed Companies.

Except Mr Manish Ravilal Patel and Ms Trupti Mitul Patel who are related inter se, the other Directors of the Company are not related to each other.

As mandated by Regulation 26(1) of the SEBI Listing Regulations, none of the Directors of the Board is a Member of more than Ten (10) Committees or Chairman of more than Five (5) Committees across all Public Limited Companies in which they are Directors. The disclosures made by the Directors regarding Board and Committee Memberships held by them in other companies have been duly recorded by the Board in its meetings from time to time.

A detailed chart showing the names and categories of the Directors on the Board, number of other Directorships and Committee Chairmanships/Memberships held by them in other Companies as on March 31, 2018 are given below:

INDEPENDENT AUDITOR'S REPORT

To the Members of
GENERIC ENGINEERING CONSTRUCTION AND PROJECTS LTD
{formerly known as WELPLACE PORTFOLIO AND FINANCIAL CONSULTANCY SERVICES LIMITED}

Report on the Financial Statements

We have audited the accompanying financial statements of **GENERIC ENGINEERING CONSTRUCTION AND PROJECTS LIMITED** {formerly known as WELPLACE PORTFOLIO AND FINANCIAL CONSULTANCY SERVICES LIMITED}, which comprise the Balance Sheet as at 31st March 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash flow statement, and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'financial statement').

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statement in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2018 and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **GENERIC ENGINEERING CONSTRUCTION AND PROJECTS LIMITED** {formerly known as WELPLACE PORTFOLIO AND FINANCIAL CONSULTANCY SERVICES LIMITED}, ("the Company") as of 31st March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial

Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS**1. SIGNIFICANT ACCOUNTING POLICIES:****(A) CORPORATE INFORMATION**

GENERIC ENGINEERING CONSTRUCTION AND PROJECTS LIMITED is Listed Public Limited Company incorporated under the Provisions of Companies Act, 1956. The Company was formerly known as WELPLACE PORTFOLIO AND FINANCIAL CONSULTANCY SERVICES LIMITED.

(B) STATEMENT OF COMPLIANCE

The company's financial statements have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 issued by Ministry of Corporate Affairs in respect of sections 133 read with sub-section (1) of Section 210A of the Companies Act, 1956(1 of 1956). In addition, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied except where compliance with other statutory promulgations requires a different treatment. The financials for the year ended March 31, 2018 of the company are the first financial statements prepared in compliance with Ind AS. The date of transition to Ind AS is April 1, 2016. The financial statements up to the year ended March 31, 2017, were prepared in accordance with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006 ("I-GAAP") and other relevant provisions of the Act. The figures for the year ended March 31, 2017 have now been restated as per Ind AS to provide comparability. These are the Company's first Ind AS financial statements.

(C) BASIS OF PREPARATION

The financial statements are presented in Indian Rupees (Rs.) and all values are recorded to the nearest lakhs, except where otherwise indicated.

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

(D) USE OF ESTIMATES

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date, reported amounts of revenues and expenses for the period ended and disclosure of contingent liabilities as of the balance sheet date. The estimates and assumptions used in these financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results may differ from those estimates. Any revision to accounting estimates is recognized prospectively.

(E) First-time adoption

Company has prepared opening balance sheet as per Ind AS as of April 1, 2016 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising assets or liabilities which are not permitted by Ind AS, by reclassifying assets and liabilities from previous GAAP as required by Ind AS, and applying Ind AS in measurement of recognised assets and liabilities.

However, this principle is subject to certain exceptions and certain optional exemptions availed by the Company as stated in note no. 27.

(F) REVENUE RECOGNITION

- (i) Revenue recognition and valuation of the contract Work in Progress are as per Ind As-11. Work receipts are taken on stage of completion of activity, stated on the basis of physical measurement of work actually completed at the balance sheet date, taking into account the contractual price and revision thereto. Foreseeable losses are accounted for when they are determined except to the extent they are expected to be recovered through claims presented or to be presented to the customers or in arbitration.

- (ii) Stage of completion is determined with reference to the certificates given by the Clients / Consultants appointed by Clients as well as on the billing schedule agreed with them for the value of work done during the year.
- (iii) Revenue from supply contract is recognized when the substantial risk and rewards of ownership is transferred to the buyer and the collectability is reasonably measured. Revenue from product sales are shown as net of all applicable taxes and discounts.
- (iv) Dividend is recognized when the shareholders' right to receive payment is established by the balance sheet date.
- (v) Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.

(G) IMPACT OF IND AS 115- REVENUE FROM CONTRACTS WITH CUSTOMER

The Company has completed its evaluation of the possible impact of IND AS 115 and will adopt the standard with all related amendments to all contracts with customers. The standard is applied retrospectively only to contracts that are not completed contracts at the date of initial application and the Company does not expect material impact of the adoption of the new standard on its retained earnings and to its net income.

(H) FIXED ASSETS

Fixed Assets are stated at cost of acquisition less accumulated depreciation and impairment loss, if any. The cost of acquisition includes direct cost attributable to bringing the assets to their present location and working condition for their intended use. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date and excludes any tax for which input credit is taken.

(I) DEPRECIATION

Depreciation is provided on the written down value method over the useful life of the assets as specified in Schedule II of the Companies Act, 2013. Depreciation is charged on a pro-rata basis from / up to the date of acquisition /sale or disposal.

(J) IMPAIRMENT OF ASSETS

Management evaluates at regular intervals, using external and internal sources, whether there is any impairment of any asset. If any indication for impairment of assets exists, the carrying value of such assets is reduced to its recoverable amount and the impairment loss is recognized in the statement of profit and loss. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and/or its net realisable value on eventual disposal. Any loss on account of impairment is expensed as the excess of the carrying amount over the higher of the asset's net realisable value or present value as determined. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss and the asset is restated to that extent.

(K) INVENTORIES

The Inventories have been valued at cost or net realizable value whichever is lower. The Inventory is physically verified by the management at regular intervals. Cost of Inventory comprises of Cost of Purchase, Cost of Conversion and other Costs incurred to bring them to their respective present location and condition.

Cost of Centering Material, Construction Materials are valued at cost or net realizable value whichever is lower, Work-in-progress consist of work done but not certified and the incomplete work as on balance sheet date and same is valued at cost or net realizable value whichever is lower.

(L) TAXATION

Taxes on income is computed using the tax effect accounting method whereby such taxes are accrued in the same period as the revenue and expense to which they relate.

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

(M) PROVISIONS AND CONTINGENT LIABILITIES

A provision is recognized when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on managements' best estimates required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more future events not wholly within control of the Company.

Contingent Assets are neither recognized nor disclosed in the Standalone Financial Statement.

27. First-time adoption of Ind AS**Transition to Ind AS**

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in Note 1 have been applied in preparing the financial statements for the year ended 31st March 2018, comparative information for the year ended 31st March 2017 and in preparation of an opening Ind AS balance sheet as at 1st April 2016 (the Company's date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Section 133 of the Companies Act, 2013 read together with Rule 7 of the companies (Accounts) rules, 2014 (Previous GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

Ind AS optional exemptions:

Deemed cost: Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangible assets at their previous GAAP carrying value.

Ind AS mandatory exceptions:De-recognition of financial assets and liabilities:

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

Estimates:

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Classification and measurement of financial assets:
